JACKSON STATE UNIVERSITY CAREER SERVICES CENTER

STUDENT SPOTLIGHT

Craig Ward

Major:
Masters in Cybersecurity/Computer Science

Graduation Date:
May 2021

Position: Volunteer Student Mentor

Organization Name & Location: Volunteer student mentor for the Verizon Innovative STEM program teaching high school minority males how to develop and design their own video games, mobile applications, program robots, and design 3- D models using different kinds of software. Also I run my own computer and mobile device repair business on the side. I even have plenty of job offers and interviews at the moment and I am very excited. Thanks JSU and Career Services Center !!

How Has The Career Services Center Helped You?
The Career services center have been a great aspect and place to help students get jobs and many other great opportunities. The wonderful people that work there always have a great attitude and also have ideas that can help you learn more about the future and the work world.

Advice For Other Students:
