

Curriculum Vitae Huey-Min Hwang

Education and Training

B.Sci. Biology National Taiwan Normal University, Taipei, Taiwan, R.O.C. (1975)
Ph.D. Microbiology University of Georgia, Athens, GA, U.S.A. (1985)
Postdoctoral: Microbial Ecology, Department of Microbiology University of Georgia, Athens, GA, U.S.A. (1986-1989)

Professional Appointments

Professor, Biology Department, Jackson State University (07/1999- Present)
Director, Environmental Science M.S. and Undergraduate concentration programs, Jackson State University (07/2003-present)
Associate Professor, Biology Department, Jackson State University (07/1994- 06/1999)
Assistant Professor, Biology Department, Jackson State University (01/1990- 06/1994)

Research Interests

Aquatic microbial ecology
Bioremediation
Renewable energy-biofuels
Aquatic photochemistry/Photoinduced toxicity and degradation
Nanotoxicology
Green biotechnology

Professional affiliations

The Society of Environmental Toxicology and Chemistry (member)
Environmental Mutagen Society (member)
Mississippi Academy of Sciences (lifetime member)

Highlights of Professional Accomplishment

Outstanding Faculty honoree, Higher Education Appreciation Day Working for Academic Excellence (HEADWAE) Program, Mississippi State, 2002

Proposals Review Panel member, National Institutes of Health, MBRS (Score) and CSR Programs, 2002-2008

NSF's Merit Reviewer and proposal reviewer of NSF Chemistry of Life Processes program 2009-present

Member of Nature Publish Group, 2009-2010

Member of Mississippi Energy Policy Institute, August 2009-present

Board of Directors, Overseas Chinese Environmental Engineers and Scientists Association, 2009

Mississippi's Nutrient Technical Advisory Group, May 2010-present

Cited (in March 2011) as a Top 10 Articles Published (paid-download) in the Domain of BioMedLib in the topic of PAHs Bioremediation- Hwang HM, Hu X, Zhao X: Enhanced bioremediation of polycyclic aromatic hydrocarbons by environmentally friendly techniques. J Environ Sci Health C Environ Carcinog Ecotoxicol Rev; 2007 Oct-Dec;25(4):313-52

Member of the DOE/USDA Biomass R&D Technical Advisory Committee, May 2011-present

Recent/Ongoing Research

(1) TITLE: Nanomaterials: A Study of Toxicity Mechanism, Bioaccumulation Potential, and Application for Prediction Modeling

ROLE: CO-P.I. of the Center and P.I. of the nanotoxicity project

FUNDING SOURCE: NSF-CREST Program

DURATION: 5 years (10/01/2008 – 09/30/2013)

(2) TITLE: NSF SBIR Phase IIA Supplemental Project entitled “Development of Cadmium-Free, Water-Soluble and Multicolor Quantum Dots by Chemical Doping- Mechanism of the Toxicity of Ferric Oxide Nanoparticles and Selected Quantum Dots

ROLE: P.I.

FUNDING SOURCE: NSF-SBIR Program (funded)

DURATION: 7 months (04/01/2010- 07/31/2011)

(3) TITLE: Acquisition of an Inductively Coupled Plasma-Optical Emission Spectrometer (ICP-OES) for Environmental Studies

ROLE: CO-P.I.

FUNDING SOURCE: NSF Major Research Instrumentation (MRI) program (funded)

DURATION: 3 Years (03/01/2010- 02/28/2013)

(4) TITLE: Development of Laboratory Modules to Enhance Inquiry-guided Learning by Implementing Biofuel-related Experiments

ROLE: CO-P.I.

FUNDING SOURCE: NSFCCLI Biochmistry Lab Grant (funded)

DURATION: 3 Years (03/01/2010- 02/28/2013)

(5) TITLE: Mississippi Biomass Utilization: University-based R&D Project

ROLE: P.I. of the JSU project

FUNDING SOURCE: DOE/MRT/SBIR Program
DURATION: 08/01/2006 to 03/31/2008

Refereed Publications (2000-present; *Correspondence author; ^d: Ph.D. student; ^m: MS students; ^u: Undergraduate student)

Wang, Y., W. Aker^d, **H.-M. Hwang***, C. Yedjou, H. Yu, and P. Tchounwou. 2011. A study of the mechanism of *in vitro* cytotoxicity of metal oxide nanoparticles using catfish primary hepatocytes and human HepG2 cells. In Press. Sci. Total Environ. doi:10.1016/j.scitotenv.2011.07.039.
