Psycamore
Flowood, MS

How Has The Career Services Center Helped You?

The Career Services Center is prompt in keeping students “in the know” with job opportunities. Even if you are a commuter student, like me, the Career Services Center sends mass emails almost daily to keep students aware.

Advice For Other Students:

Before this wonderful job came about, I was a server at Applebee's. Applebee's was my first professional job and honestly was only a rest stop for me. I knew Applebee's was not going to be the job I had for the rest of my life. Something to keep in mind is that this economy does not always grant every person's wish in their career life. However, persistence and determination will always end in at least some wants and needs to be met. My favorite quote to deal with life in general or a job search is “ If at first you don't succeed- Try Try Again!”

Career Goals:

Upon graduation, I plan to take on a full time position at the Psychiatric Clinic I am currently employed at. During this time I can obtain my masters to excel as a Nurse at my job as well as travel to rural areas who are in desperate need of medical assistance.
