**Organization Name & Location:**

Molina Healthcare  
Jackson, MS

**How Has The Career Services Center Helped You?**

Career Services Center has helped me during my entire journey in my doctoral studies. When I decided to go overseas and study abroad a representative from Career Services helped me make a decision on which location was more beneficial for my career goals. Upon returning from South Africa in 2016 and Argentina in 2017, a representative from Career Services gave me hands on help with my resume to reflect the work and studying I had done while abroad.

**Advice For Other Students:**

Never settle for less. Always take every opportunity thrown at you and remember to seek help in making your wildest dreams a reality.

**Career Goals:**

My career goal is to be a Dr. of Public Health with the job title of Field Epidemiology Manager for the Center for Disease Control.
