Hometown: New Orleans, LA

Position:

Graduate Student

Organization Name & Location:

Jackson State University
Jackson, MS

How Has The Career Services Center Helped You?

A woman by the name of Dr. Jordan in the Career Services Center is real nice and respectful. She has encouraged me to check my e-mail to look for upcoming internship fairs, and that I am destined to land a job once I graduate.

Advice For Other Students:

I encourage them to go to all of the career fairs that are offered on campus. I encourage them to make sure to complete an internship by the time they graduate, and to have a professional resume. They can gain experience as an intern, which looks good on a resume. They should also apply to as many jobs as possible by the time they graduate, or pray the company they are interning for hires them! Keep God first too.

Career Goals:

Become a professional Hardware Engineer or Data Architect or Network Architect. I will become a published poet. I also want to become a profound screwing and chopping Dj. I also want to become affluent in photography.
