How Has The Career Services Center Helped You?

The Career Service center taught me to explore my options and find jobs that best suit me and my interest. Although you may not always find the exact jobs you may want it is always good to start somewhere and work your way to your goals.

Advice For Other Students:

Do not turn down a job because you think it is beneath you. It may be the very stepping stone you are suppose to use to get to where you desire. Also know your worth and how much you deserve to be paid.

Career Goals:

My career goals include becoming a certified pediatric physical therapist and owning my own facility.
