**How Has The Career Services Center Helped You?**

I would argue that career services was highly instrumental in assisting me during the preparation phase of my job search. They offer a plethora of services which include: career coaching, resume writing, interview tips, just to name a few.

**Advice For Other Students:**

I would encourage each of them to thoroughly research the company and the position they aspire to obtain. Also, connect with individuals who are currently serving in the role and ask for professional insight.

**Career Goals:**

It is my desire to launch a Neighborhood Revitalization Consortium, which will assist disenfranchised black and brown communities throughout America. My ultimate career objective in life is to serve in the capacity as President of a Historically Black College or University.
