

JACKSON STATE UNIVERSITY CAREER SERVICES CENTER

Rijan Ghimire

Major:
Computer Engineering

Graduation Date:
August 2019

Position: IP Video Professional I

Organization Name & Location: Cspire

How Has The Career Services Center Helped You?

Career Services helped me by providing me different opportunity to use the skills I learnt in school in a practical but non-threatening way. I was able to talk to different recruiters and go to different Events held by these companies that want to hire talent from a more diverse pool. These interviews gave me more confidence in my own skills. This led me to apply to a plethora of companies when I graduated so I got to pick and choose between different roles. I finally settled on CSpire as I had interned here the summer before, and I really liked the company culture. I would not have been able to identify the values I needed in a workplace, if not for JSU Career Services.

Advice For Other Students:

Apply for as many jobs as you can in the areas that you are skilled in. This will allow you to get experience with interviews and in case the companies offer a position, a better negotiating position. Make sure you use all the available resources, attend all the career service events and use all the services offered by the Career Services Center. Always be learning and on the lookout for new opportunities to excel.
