How Has The Career Services Center Helped You?

The Career Services Center has been very helpful to me by consistently providing information about internships, job vacancies, and professional development opportunities that former students may not be aware of after graduation.

Advice For Other Students:

I would encourage every student to take advantage of internships whether it is paid or unpaid. Also, build and maintain a positive relationship with your professors, a credible reference goes a long way as a young professional. Lastly, always remember first impressions and presentation matters in the real world. Never underestimate the power of a well-tailored resume and a well-tailored business suit.

Career Goals:

A few of my short term career goals are to obtain the CPA designation and pursue a law degree in taxation. However, my ultimate career goal is to be a professor within the accounting discipline.
