

**Jackson State University
Mathematics/Engineering Fair
2008 Mathematics Poster Competition**

Participants are asked to prepare a poster on the **contributions in mathematics from a particular culture**. Participants are asked to prepare a poster board on a science fair type board. The poster board should include information about the contribution of mathematics from a particular culture in areas such as technology, art, science, etc.

The posters will be judged on creativity, educational value, neatness, and originality. This competition may be entered either as an individual or in a group of no more than two students. The back of the poster should include the school name and the names of the participants.
