The principal objective of the College is to provide diverse opportunities for meaningful and quality liberal education. The College serves both graduate and undergraduate students. It offers a wide variety of majors in the academic disciplines, core courses, as well as balanced programs of study in related disciplines. The College of Liberal Arts prepares students for many kinds of professions and graduate studies; it cooperates with the College of Education and Human Development in offering joint professional and pre-professional studies for teaching majors.

While the long-range goal is that of producing a well-rounded individual--intellectually, spiritually, physically, emotionally, and aesthetically, the College seeks to accomplish this primarily by placing emphasis on intellectual achievement. Regardless of their professional interest, students are expected to become fluent in their own language, literate in at least one foreign language, and to give attention to the physical and life sciences, computer technology, and the fine arts.

It hoped that such liberal studies will enlarge and augment the student's particular concern in order to produce the resourceful and thinking graduate who has an understanding of self, the past, and the present and who is prepared intellectually and morally for the task of shaping the future.

The College of Liberal Arts offers the following graduate degrees: Doctor of Philosophy in Clinical Psychology; the Master of Arts in Criminology and Justice Services, English, History, Political Science and Sociology; the Master of Arts in Teaching English; the Master of Music Education; the Master of Science in Mass Communications; and the Master of Science in Education with concentrations in several modern foreign languages.

The School of Social and Behavioral Sciences consists of leaders in graduate education at Jackson State University. Academic units comprising the School of Social and Behavioral Sciences are the Department of Criminal Justice and Sociology, the Department of History and Philosophy, the Department of Political Science, and the Department of Psychology.

In addition to the four academic units shown above, students and faculty participate in several interdisciplinary research and citizenship programs - - two centers, the Margaret Walker Alexander National Research Center for the Study of the Twentieth Century African American, spawned from the Department of History; the Alcohol and Drug Studies Center; whose genesis was the Department of Sociology; a planned program of research for the Department of Psychology, the Community Health Program (CHP) and a Clinical Psychology Services Program; and the Fannie Lou Hammer National Institute on Citizenship and Democracy, which grew out of more than a quarter of a century of activity by the faculty of the Department of Political Science.

The aforementioned four units, their programs of teaching, research and service, attract a substantively diverse and international faculty and student body. All graduate programs in the social and behavioral sciences maintain an optimal student enrollment and provide excellent mentoring by core faculty with combined research and practitioner experiences in traditional academic specializations and public service roles. Graduate students are expected to meet with their mentors many times during the course of the academic year and are encouraged to begin research projects with their mentor the summer preceding their admission. Graduate coursework, preliminary examinations, qualifying examinations, internships, thesis and/or major papers, and dissertation preparation, are the major components of the graduate programs in the School of Social and Behavioral Sciences. The College of Liberal Arts's only doctoral program - Clinical Psychology - has an excellent teaching faculty with planned programs of clinical research. The social and behavioral sciences

have engaged teaching faculty with quality research publications. The School of Social and Behavioral Sciences generates large sums of external funds to support graduate student fellowships, foster research opportunities that advance student's careers, generate new knowledge/discoveries in collaboration with graduate students.

The School of Social and Behavioral Sciences offers the Doctor of Philosophy in Clinical Psychology; the Master of Arts in Criminal Justice and Justice Services, History, Political Science, and Sociology.

Program Objectives and Mission

The Department of Psychology offers a Ph.D. degree in Clinical Psychology. The mission of the doctoral program is:

1. To produce highly skilled, license eligible graduates who can function as both scientists and clinicians.
2. To increase the awareness, knowledge, and skills of students, faculty, and professionals in the area of multicultural psychology.
3. To support the progress of graduate students from diverse racial and ethnic backgrounds as well as immersing traditional graduate students in multicultural experiences within the community.
4. To provide field experiences designed to meet the diverse psychological, health, and service needs of ethnic minority populations.

Participants in this program will be guided by a curriculum anchored in the cumulative body of psychological knowledge with a firm basis in statistics, research design, and experimental methodology. The program develops in the student, the knowledge and skills required for effective functioning as an empirically-oriented clinical psychologist in diverse settings. This is accomplished through a sequence of formal clinical courses, distinguished by in-depth exploration of multicultural issues and exposure to ethnic minority communities, including interdisciplinary and interorganizational collaboration and consultation.

The process through which this mission will be accomplished is consistent with the goals and mission of Jackson State University as a comprehensive university. An essential part of the program are students and faculty who are committed to multicultural issues and who are comfortable with objective assessment and systematic

intervention on both an individual and community level. The department strives to support students and faculty involved in basic and applied research, while providing a challenging intellectual environment.

Accreditation

The program is fully accredited by the American Psychological Association. If you have questions about the graduate program's accreditation status or the accreditation process feel free to contact the responsible APA Office in writing or by Telephone:
