Communicative Disorders Candidate Qualifications - assistant, associate or full professor (one position)

The Department of Communicative Disorders has a dual mission of providing excellence in academic and clinical service delivery at the undergraduate and graduate levels. These activities are enhanced by the School's mission, which includes conducting research and engaging in service activities within the University and the larger community.

The Department offers the Bachelor of Science and the Masters of Science in Communicative Disorders. Additionally, the Department offers a Post-Baccalaureate Program for students who have completed an undergraduate degree that is not in an area

of Communication Sciences and/or Disorders, but who wishes to take pre-requisite coursework needed to be eligible to make application to a Master of Science Program in Communicative Disorders. The Department also operates the Central Mississippi Speech, Language and Hearing Clinic which serves as a training site for students enrolled in the Department and which offers assessments and rehabilitation in the areas of speech, language, cognition, hearing and/or swallowing. The Masters of Science Degree Program is accredited in Speech and Language Pathology by the Council on Academic Accreditation in Audiology and Speech-Language-Pathology of the American Speech-Language-Hearing Association.

Requirements and Qualifications: Applicants for the position of Assistant/Associate/Full Professor of Communicative Disorders must have:

- a Ph.D. in speech-language pathology, speech and hearing sciences, or communication disorders;
- a Certificate of Clinical Competency (CCC) in Speech-Language Pathology and MS State Board of Health licensure or eligibility to make application for licensure.
- areas of expertise in fluency, speech sound disorders, medical speech-language pathology, and/or augmentative and alternative communication, although other areas of expertise will be considered;
- evidence of research activity or potential
- strong communication and interpersonal skills;

Candidates with doctorate degrees from accredited institutions and documented public health practices will also be considered for the announced position.

RESPONSIBILITIES

Major responsibilities of this position include:

- Teaching both graduate and undergraduate communicative disorders courses
- Providing student advisement
- Serving on various departmental, school, and university committees
- Engaging in collaborative scholarly activities
- Performing clinical supervision for student clinicians
- Performing other duties as assigned

Interviews will begin immediately and the position will remain open until filled.
