**Goal:** Project MAST will improve teacher content knowledge and teaching efficacy through science inquiry in high school physics, physical, earth, and space science classrooms implementing Next Generation Science Standards.

Dear High School Science Teachers,

We invite you to participate in our program! We will accept all eligible teachers. However, we expect to have more qualified teachers than we have space for. If you are accepted into our program, you will be **randomly selected** to either 1) participate in the Professional Development (PD) courses the summer of 2015 OR you will be asked to 2) complete other tasks (no PD) for a significant stipend for you and your students. Either way, we will reward you for your efforts.

Due to limited space, you are encouraged to submit your completed application, principal agreement, and letter of recommendation ASAP.

Thank you for your time and interest!

How does Project MAST’s goal align with your interests for professional growth?

What do you hope to get out of participating in this program?
What does inquiry based science-teaching mean to you?

Describe a recent Professional Development experience you have had. What did you learn? How could it have been improved?

Describe your use of computer technology.

In addition to this completed application, please include:
    √ Signed Principal Agreement form
    √ A letter of recommendation from your Principal

Send or Fax the completed application package to:
    Debra Divinity, Jackson State University, PO Box 17660, Jackson, MS 39217
    Telephone 601-979-2969, Fax 601-979-8623
