Organization Name & Location:
Naval Sea Systems Command (NAVSEA)

How Has The Career Services Center Helped You?
JSU's Career Services Center has provided me with a plethora of opportunities during my tenure as an undergraduate student. I was able to attend many events over the years from mock interviews, career sessions, and career fairs. With the aid of the Career Services Center spring career expo, I was able to land a full-time offer back in February that I will start soon.

Advice For Other Students:
Make sure to go beyond your degree program and network by attending career sessions, career fairs, conferences, and completing internships.
