

Immunization Requirements

All students admitted to Jackson State University are required to submit proof of having received two immunization shots for measles, mumps, and rubella (MMR) in order to complete registration for classes.

If an applicant has already been admitted and plans to attend the University as a first time student (undergraduate, graduate or transfer), he/she must submit a copy of the required immunization record to the University Health Center prior to registration for courses.

Students who have been admitted but do not submit the required immunization verification will be unable to complete registration for classes in the school's computer enrollment system.

Please see further immunization information at <https://www.jsums.edu/healthservices/immunization-requirements/>
