

Civil & Environmental Engineering Program Externally Funded Research Grants

- The amount of externally funded grants for Civil & Environmental Engineering **has been among the highest nationwide.**
- The amount of externally funded grants for Civil & Environmental Engineering has generally ranged from 1M to 5M.
- Approximately 70% of all equipment has been obtained through externally funded grants.
- Two faculty are fellows of the American Society of Civil Engineers (ASCE).
- JSU Civil Engineering has been a leader and nationally recognized in several areas. Some examples are 1) Full-Scale Levee Strengthening; 2) Bio-Mediated Soil Improvements; with numerous publications in top engineering journals.
- The Ph.D. program has been carefully designed to produce high-quality Ph.D. graduates with publications in top journals.
- Two faculty member has obtained the prestigious National Science Foundation CAREER grant.
