These states require state specific licensure examinations many of which may not be substituted for with the Praxis ETS scores. Therefore, NASDTEC does not guarantee full teacher license reciprocity for member states but does help clarify which licenses will transfer and what additional requirements must be met.</i></p>	

Important Message to Current and Prospective Students State licensure requirements vary from state to state. This table of which states requirements align with those of your degree program is based on those states which require completion of a Bachelor’s degree from an accredited teacher preparation program as well as successful scores on the Praxis Educational Testing Service Examination Series: Praxis Core, Praxis Subject Area, and Praxis PLT. Note that there may be additional state specific requirements that you must meet if you wish to use your teaching degree outside of Mississippi. Please check the Department of Education website of the state you are interested in moving to for additional details.
