Business

Higher Education

Public Policy & Administration
Urban & Regional Planning

The Executive Ph.D. (EPHD) in Urban Higher Education at Jackson State University prepares students to assume leadership roles in post-secondary institutions and other organizations whose primary endeavors relate to or impact the operations of institutions of higher learning.

The audience for this unique program could include faculty in management positions seeking higher level leadership, as well as, mid-entry level personnel in management from colleges and universities in urban or metropolitan settings and executive related agencies that work either as suppliers or clients of the higher education enterprise. This could include human resource/service agencies, foundations, corporations with an adult training mission, and other sectors that represent government, industry, commerce or technology.

Jackson State University is committed to the principles of equal education opportunity, equal employment and affirmative action. The University does not discriminate on the basis of race, color, sex, handicap, age, religion, national origin, veteran status or any other illegal basis.
