

# BANNER 9 NAVIGATION GUIDE

Jackson State University Information Technology

#### Banner 9

Banner 9, according to Ellucian, is no ordinary upgrade. "It delivers a fresh user experience, all new tools, and significantly improved capabilities across Banner, driving new efficiencies so you can focus on student success."

Banner 9 will provide a fresh look and updated functionality, including new functionality for faculty grading, student advising, and registration. Banner 9 replaces underlying Banner 8 technology that is being phased out, including Oracle Forms, and eliminates the need to run Java (JRE) in the browser. Banner 9 continues to provide single sign-on functionality and will make new modules and Admin pages accessible through a single product.

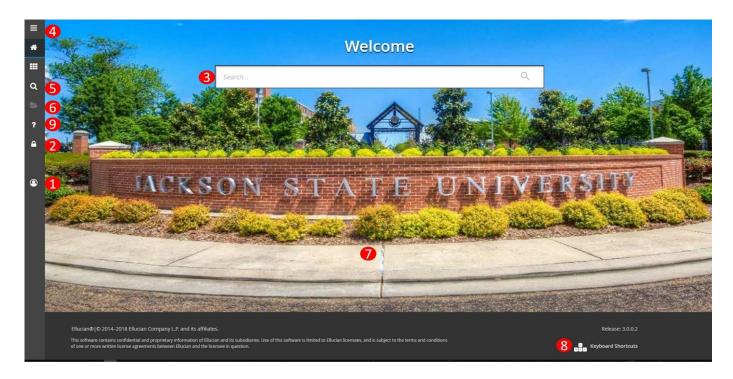

Some of its many new advantages include:

- · Eliminating users' browser compatibility problems
- Ending dependency on Internet Explorer and allows for full browser support (Chrome, Firefox, Safari, MS Edge)
- · Greatly simplifying the upgrade process for administrators

# What's new with Banner Admin Pages?

The Banner 9 welcome screen offers a "google-like" experience for navigating throughout Banner Admin pages, offering multiple ways to search.

- Reorganization of the Banner Administrative menu.
- Banner Admin pages are transformed, web page-like versions of INB forms.

#### Banner 9 Welcome Page

You can then use any of the following to navigate within the Welcome Screen:

- 1. User's Name at on the left panel
- 2. Button to log out. You can also close the browser to log out.
- 3. Search bar in the middle of the screen.
- 4. Pop out menu. (Banner Admin Pages)
- 5. Search that stays on the left of the screen the screen.
- 6. Folder to access recently used forms. (Current Session Only)
- 7. Application Navigator.
- 8. Shortcut Keys menu.
- 9. Help is activated when a form is displayed.

You can **return to the Welcome Page** by clicking on the **JSU Banner 9** home link.

**On-line help** is available via the "?" icon or shortcut key (CTRL+Shift+L). This icon is found in the top right corner of the page. This function allows you more information regarding a selected page or help in using that page.

The Welcome Page has a set of keyboard shortcuts, which you can review by clicking on **Keyboard Shortcuts** in the bottom right corner of the page. Please see the appendix for a full list of Keyboard Shortcuts.

It is important to remember to use the **Sign Out** link in the upper right corner when closing the application (instead of just closing your browser) to make sure you are logged out of the application.

#### **Basic Navigation**

The basic navigation of each page (previously called Forms) includes the page header, key block, sections, notification center, and buttons.

#### **Page Header**

X General Person Identification SPAIDEN 9.3 (TEST)	👔 add 🚆 retrieve 🗸 related 🗱 tools
ID: L00551478 Student, Example	Start Over

The page header is part of the basic navigation and contains the following items:

- Page close icon "X" Always use this icon to close your page.
- Page title Includes description, acronym, version, and database.
- Add and Retrieve icons These icons are used with Banner Document Management (Xtender).
- Release and Submit buttons Displayed only with a workflow.
- Related Menu button Displays a list of pages that can be accessed from this page.
- **Tools Menu** Will include refresh, export, print, clear record, clear data, item properties, display ID image, and other options controlled by the page.
- Notification Center Will be located to the right of the Tools Menu and will display the following information as needed: successful save of data, warning messages, error messages, informational messages, number of messages to be corrected to continue in the page. You can click in the box with the number in the page header to open or close the Notification Center.

#### Notification Center

## Key Block

E Q 50 JSU BANNER 9	P	Doru Pacu	rari	ari 🔒 Sign Out		
X Term Sequence Course History SHATERM 9.3.6 (H-PPRD)	∔ AD	D 🖹	RETRIEVE	Å		🔆 TOOLS
ID: 100140157 Test, Kim Course Level Codes:						Go
Get Started: Fill out the fields above and press Go.						

The first block on most pages contains key information. The key block determines what data is entered or displayed on the rest of the page. All the information on the page is related to the key block. The key block stays on the page as subsequent sections are displayed.

When the cursor is in the key block, the fields that can be entered in the key block are enabled. When you leave the key block, the fields in the key block are disabled.

When the cursor is in the key block, the information is displayed in a column format. When you leave the key block by clicking the **Go** (previously Next Block) button, the data is rearranged into a linear format and not enterable.

To access the body of the page, populate the key block data and then click Go.

You can return to the key block if you are in the body of a page by clicking **Start Over** (previously Rollback).

#### Sections

Pages are divided into sections (previously blocks) that contain additional details for the key information. A section can represent one record or multiple records depending on the type of information that you are working on. Each section contains related information. Sections of data are accessed by scrolling up and down the page. They can be opened or collapsed by clicking on the arrow on the far left side of the section header. Some sections are accessed by using tabs that group information in a meaningful way.

EDIT Record: 1/1 SPRIDEN_CURRENT.SPRIDEN_ID [1]							elluc	cian			

If available, the sections can have a header that includes icons for the following actions:

- **Delete** Use this to delete records in the section.
- **Copy** Use this to copy records in the section.
- **More Information** *This icon will only appear if supplemental data can be entered for the record.* The icon is displayed with a check mark if supplemental data already exists for the record.
- Filter Use this to filter records in the section.

#### **Bottom Section Navigation**

Activity Date: 81/11/2015 11:59:15:AM Activity User: EVALIGHN	SAVE
EDIT Regime SPRIDEN_CURRENT SPRIDEN_ID [1]	Alucian
Previous Section Next Section	Save

The bottom of the section of the page will contain icons to be used for navigation, perform functions, and display additional information.

- **Previous Section button** Will take you backwards in the sections (Alt+ Page Up).
- **Next Section button** Will take you to the next section of the page (Alt+ Page Down).
- Activity Date-Current system time. This would be the time stamped for the record if created or
- modified.
- Activity User Name of account user creating or modifying the record.

**Save button** – This the button you will use to save your data.

#### **Notification Center Messages**

You may see four message notification component types when working in Banner 9:

\* Error Notification – Will display a "!" in a circle when message is displayed

\* Info Notification – Will display an "i" in a circle when message is displayed. May display an OK button that you must select to continue.

• Success Notification – Will display a checkmark in a circle when message is displayed.

**Warning Notification** – Will display a "!" in a yield sign when message is displayed. Will also display two buttons, Yes/No, that must be selected to continue.

# **Data Display Options**

#### **Required Fields**

An asterisk (\*) displayed next to a field name indicates that the field requires a value before you continue on the page. The system uses the definition of the field as it is used in the application to determine if it is required. For fields that have conditional logic that determines whether they are required, the asterisk (\*) is not displayed. If you leave a section or a page without entering information in a required field, the page notifies the individual in the Notification Center, requiring the user to perform some additional action.

#### Sort Order

In a grid layout, values for a field can be sorted; and, if you have chosen to sort the data, an up or down arrow next to the field name indicates the current sort order for the field. You can click the field label to reverse the sort order.

#### Dates

You can either enter the date directly or use the calendar icon for date selection. The date format is mmddyyyy. To enter the current date, type any letter and [TAB].

#### Lookup

The Lookup feature allows you to quickly find a value for a field. The **Lookup** button next to a field indicates that the field has the Lookup feature.

Click the **Lookup** button<sup>Name Type</sup>, enter a filter value, and press **Enter** to display results that match the filter criteria. Select a value and click **OK**, or double-click a value to return the value to the calling page.

In addition, when you are in the key block and all you see is the id field, you can press the tab key and this will allow you to enter a name search.

### **Filtering Data**

You can filter data in a section if there is an active **Filter** icon in the section header. Use the following steps to filter data in a section.

- 1. Click the active **Filter** (F7) icon for the section.
- 2. Choose the field you want to filter from the Add Another Field drop down list.

×	Person Search SOAIDEN 9.3.3 (TEST)
PERS	ON SEARCH
Add /	Another Field M
• Ca	se Insensitive Query O Case Sensitive Query

3. Choose an operator from the **Contains** drop down list. The available operators depend on the type of field (numeric, alphanumeric, date, check box, or other).

The **Contains** operator is available for alphanumeric and other fields only. The **Between** operator includes the values entered. For example, for codes "between" 1 and 5, the values 1, 2, 3, 4, and 5 are considered. Required fields do not use the Is Null and Is Not Null operators.

×	Person Search SOAIDEN 9.3.3 (TEST)
▼ PER	RSON SEARCH
1	
ID	V Contains V
Add	d Another Field 🔽

4. Enter a value for the field you selected.

×	Person Search SOAIDEN 9.3.3 (TEST)
• PERSO	DN SEARCH
[ID	Contains 🔽 551478
Add A	Another Field 🔽
Case	se Insensitive Query O Case Sensitive Query

- 5. **Optional:** If you want to add another field to the filter criteria, choose a field from the **Add Another Field** dropdown, select an operator, and enter a value for the field that you selected. Repeat this step until all filter criteria are entered.
- 6. When all filter criteria are entered, click **Go** (F8) to display the filter results. The number of records retrieved is displayed at the bottom of the section. The results for a field can be sorted in ascending or descending order by clicking on the field label in the column header. You can reverse the sort order by clicking the field label.
- 7. Optional: If you want to perform another filter, click Filter Again.
- 8. **Optional:** If you want to close the filter and display all unfiltered records, click the lowercase **x** in the upper corner of the filter window to close the filter.

#### Wild Card Lookup

When utilizing the Lookup option you may perform either exact match lookups or partial match lookups when some of the information is unknown. To perform a partial match lookup, you will use a "%" to replace

the unknown information. For example, when searching for a student with an incomplete ID number you may enter the known information as L0055%47%.

## **Multiple Records**

Data can exist in multiple records of the same type in the database (e.g., addresses) and are displayed in multiple ways. Records can be viewed one record at a time or in a grid.

**One record at a time.** In this instance, the details of the data are not displayed in a table grid, but rather in a more easily readable manner. You can move from record to record using pagination controls (the arrows located in the bottom left hand corner)

# **Advanced Features**

#### **Item Properties**

Item Properties lists all properties for the field where the cursor is currently located.

Item properties include the field's internal database name, whether the field is required, type of data (character or numeric), maximum length, and other characteristics of the field. The specific properties that are displayed depend on the type of field. To display Item Properties for a field, place the cursor in the field and select **Tools > Item Properties**.

# Appendix

# **Buttons**

Banner admin pages include several buttons.

Button	Description
Add and Retrieve	Use the Add and Retrieve buttons to interact with Banner Document Management (xTender) to properly store and review documents.
Go	Use the Go button to advance to the body of the page after populating the key block.
Save	Use the Save button to save changes on the page. The Save button is located on the bottom right side of the page.
Section Navigation	Use the Next Section button to navigate to the next section of data. Use the Previous Section button to navigate to the previous section of data. The Next Section and Previous Section buttons are located at the bottom left of each page.
Select and Cancel	Use the Select button to select and retrieve data from a called page to the current page. Use the Cancel button to return to the called page without retrieving any data. When you need to go to a secondary or called page to retrieve data, the Select and Cancel are presented at the bottom of the page.
Start Over	Use the Start Over button to return to the key block of the page.

## My Banner Personal Menu

You may create a personal menu tied to your Banner user ID. Your personal menu will contain the pages, jobs, menus, and quickflows that are most important in your daily work. Once the personal menu is created, you may access it from the main menu.

1. From the Banner 9 Welcome Page, use either the search box in the middle of the screen or the search icon to enter either "My Banner" or "GUAPMNU".

≡	-		
ñ		Welcome	
		Preferences	$\times$
Q			
2		E-Procurement Interface Preferences Control (FPAEPRC)	
?		Enterprise PIN Preferences (GUAPPRF)	
۵	MCK S	General User Preferences Maintenance	RSIN
	La succession of the	(GUAUPRF)	
9	A State of the sta	and the second	

- 2. The My Banner maintenance page contains:
  - □ Type: A drop down menu located at the top of the screen to allow you to choose from Banner Pages, Job Submissions, Menus, Menu Messages, and Workflows to access all forms needed to customize your My Banner.
  - □ Object Type: All available pages, jobs, menus, or quickflows associated with the chosen type selected from the drop down menu.
  - □ Buttons: Buttons are used to insert or remove selections from the available list to your My Banner list.
  - □ Object Selection: Will display the contents of your personal menu.

6. You will have to sign out and sign back in to see changes on your My Banner.

## **General User Preferences**

- 1. Type General User Preferences (GAUUPRF) in the Search Field.
- You want to make sure that the following boxed are checked. This will help with navigation and data extracts.
   Once you have selected the options, click Save.
