

Data Classification Standards

	Confidential (highest, most sensitive)	Restricted (moderate level of sensitivity)	Public (low level of sensitivity)
Description	Data which is legally regulated; and data that would provide access to confidential or restricted information.	Data which the DIT or the Data Custodian have not decided to publish or make public; and data protected by contractual obligations.	Data which there is no expectation for privacy or confidentiality.
Legal Requirements	Protection of data is required by law.	Protection of data is at the discretion of the DIT or Data Custodian	Protection of data is at the discretion of the DIT or Data Custodian.
Reputation Risk	High	Medium	Low
Data Access and Controls	Legal, ethical, or other constraints prevent access without specific authorization. Data is accessible only to those individuals designated with approved access and signed non- disclosure agreements; and typically on a business "need to know" basis.	May be accessed by JSU employees and nonemployees who have a business "need to know."	No access restrictions. Data is available for public access.
Transmission	Transmission of Confidential data through any non-JSU network or JSU guest network is prohibited (e.g. Internet). Transmission through any electronic messaging system (e-mail, instant messaging, text messaging) is also prohibited.	Transmission of Restricted data through any wireless network, and any non-JSU wired network is strongly discouraged. Where necessary, use of the University's VPN is required. Transmission through any electronic messaging system (e-mail, instant messaging, text messaging), is also strongly discouraged.	No other protection is required for public information; however, care should always be taken to use all University information appropriately.
Storage	Storage of Confidential data is prohibited on unauthorized Qualified Machines and Computing Equipment unless approved by the Information Security Officer. If approved, DIT approved encryption is required on mobile	Level of required protection of Restricted data is either pursuant to JSU policy or at the discretion of the Data Manager or Data Custodian of the information. If appropriate level of	No other protection is required for public information; however, care should always be taken to use all University information appropriately.

	Computing Equipment. DIT approved security measures are also required if the data is not stored on a Qualified Machine. Storage of credit card data on any Computing Equipment is prohibited.	protection is not known, check with Information Security Officer before storing Restricted data unencrypted.	
Documented Backup & Recovery Procedures	Documented backup and recovery procedures are required.	Documented backup and recovery procedures are not necessary, but strongly encouraged.	Documented backup and recovery procedures are not necessary, but strongly encouraged.
Documented Data Retention Policy	Documented data retention policy is required.	Documented data retention policy is required.	Documented data retention policy is not required, but strongly encouraged.
Audit Controls	Data Managers and Data Custodians with responsibility for Confidential data must actively monitor and review their systems and procedures for potential misuse and/or unauthorized access. They are also required to submit an annual report to the Information Security Officer outlining departmental security practices and training participation.	Data Managers and Data Custodians with responsibility for Restricted data must periodically monitor and review their systems and procedures for potential misuse and/or unauthorized access.	No audit controls are required.
Data Examples (not all- inclusive) *exceptions apply	Information resources with access to confidential or restricted data (username and password). Personally Identifiable Information (PII): Last name, first name or initial with any one of following: - Social Security Number (SSN) - Driver's license - State ID card - Passport number - Financial account (checking, savings, brokerage, CD, etc .), credit card, or debit card numbers Protected Health Information (PHI) *	 Personal/Employee Data JSU ID number Income information and payroll information Personnel records, performance reviews, benefit information Race, ethnicity, nationality, gender Date and place of birth Directory/contact information designated by the owner as private Business/Financial Data Financial transactions which do not include confidential data Information covered by non-disclosure agreements Contract, that don't contain PIL 	Certain directory/contact information not designated by the owner as private. - Name - Addresses (campus and home) - Email address - Listed telephone number(s) - Degrees, honors and awards - Most recent previous educational institution attended - Major field of study - Dates of current employment, position(s) - ID card photographs for University use
	- Health status - Healthcare treatment - Healthcare payment Personal/Employee Data	 Contracts that don't contain PII Credit reports Records on spending, borrowing, net worth 	Specific for students: - Class year - Participation in campus activities and sports

- V	Vorker's compensation or disability claims	Academic / Research Information	- Weight and height (athletics)
