

eXperience

Wants YOU!

Want to get involved with Jackson State University eXperience student publication?!

Do you have what it takes to be a part of our team?!

If you are an aspiring writer, photographer, editor or assistance editor, we are looking for YOU!!!

Students!!! Getting involved is one of the most important things you can do while in college. "Involvement" is defined as any activity outside the classroom which enhances and contributes to student learning. It does not matter how you are involved, it only matters that you are!!

So, What's in it for you??!!

As a result of your involvement, you will gain knowledge, skills and experience in leadership, problem-solving, communication, presentation and public speaking and much more!! Being involved encourages and advances your development on all levels; intellectual, cultural, spiritual and social. Students feel more connected to the university, the campus, the people and are more familiar with the resources the university provides.

Now you know, what are you waiting for?!!

Only serious applicants need to apply. Please submit writing samples, photographs and any published clippings to:
