# BACHELOR OF SCIENCE PHYSICS Pre-Medicine

The Physic's departmental philosophy is that each student should be able to reason, to collect facts and opinions, to think critically and to make informed decisions concerning their social. economic. and political environment. The objective of the Bachelor of Science in Physics program is to prepare students for careers in physics research, engineering, medicine, other professional fields including and physics teaching in high schools. Physics courses prepare students with good mathematical and analytical skilled profession, skills. every In such as medicine, management, teaching, etc. engineering, Analytical expertise gained through mathematics and physics courses will provide an added opportunity/ tool to choose and succeed in that profession. A thorough study of mechanics, statistical physics. modern physics, electromagnetic theory, and quantum mechanics along with introductory physics courses and introductory math courses enhances students' ability and updates modern innovations technological needed to succeed in alternate career choices.

Alternative careers include teaching, medicine, law (especially intellectual property or patent law), science writing, history of science, philosophy of science, science policy, energy policy, government, or management in technical fields. College of Science, Engineering and Technology

|                             | COURS      | SE TYPE DESCRIPTIONS  |
|-----------------------------|------------|---|
| General Education Core      | GEC        | <b>General Education Core (GEC)</b> courses are courses that every<br>student must take in order to obtain a degree from Jackson State<br>University. GEC courses are essential to every undergraduate degree at<br>Jackson State University. Collectively, there are 30 credit hours of GEC<br>course requirements.  |
| General Education Pathway   | PATH       | <b>General Education Pathway (PATH)</b> courses are courses that<br>are connected through interdisciplinary themes and are selected at<br>the student's discretion to fulfill the general education curriculum.<br>Through experiential learning and reflective writing, students will have<br>the opportunity to integrate knowledge across courses, develop their skills<br>and an enhanced sense of civic responsibility. Students select nine (9)<br>hours from the pathway of choice. Each pathway concludes with a related<br>one (1) credit hour a University Required (UR) course.                          |
| University Required         | UR         | <b>University Required (UR)</b> courses are courses that are specific to Jackson State University and are designed to integrate students within the Jackson State University community by promoting student success resources, strategies and high impact practices.  |
| Degree Program Requirement  | DPR        | <b>Degree Program Required (DPR)</b> courses are courses that are required for completion of a degree program within the specified major.   |
| Electives                   | DPE or GEL | <b>Electives</b> are courses selected at a student's discretion and provide oppor-<br>tunities for students to pursue their academic interests. There are two types<br>of electives. <b>Degree Program Elective (DPE)</b> courses are elective courses<br>that are partially restricted such that students select courses from a<br>specified group of identified courses (e.g., departmental elective courses)<br>to fulfill a particular requirement. <b>General Elective (GEL)</b> courses are<br>courses that may be selected from any program for which the student has<br>fulfilled the proper prerequisites. |
| Professional Concentrations | PC         | <b>Professional Concentration (PC)</b> courses complement Degree<br>Program Required courses and allow students to have a concentrated area<br>of study within the major.   |

# **COLLEGE OF SCIENCE, ENGINEERING AND TECHNOLOGY**

Physics

CONCENTRATION: PRE-MED

Students must choose six(6) hours of physics electives from the course option list below:

|                          | Course Title | Course Name                                      | Credit Hours |
|--------------------------|--------------|--|--------------|
| <b>Physics Electives</b> | PHY 241      | Introduction to Astronomy                        | 3            |
|                          | PHY 312      | Theoretical Mechanic II                          | 3            |
|                          | РНҮ 362      | Mathematical Methods of Physics and Chemistry II | 3            |
|                          | PHY 412      | Electromagnetic Theory II                        | 3            |
|                          | PHY 430W     | Methods of Exp. Physics II                       | 3            |
