

# **BACHELOR OF BUSINESS ADMINISTRATION FINANCE**

The BBA Finance program provides training in how to prioritize choices in human life, especially about the allocation of available resources to optimize life's goals. The program equips its graduates with skills in logical and critical thinking, business communication, problem solving, and business analytics, for applications and policy formulations toward solving economic, financial, and business problems. Graduates of the program are equipped for career prospects in various entry level positions in the business and financial sectors, industries, government, and non profit organizations; potentially as bank managers, insurances brokers, economic and business consultants, investment analysts, financial planners, economic development project analysts, and security exchange traders. The program also prepares its graduates to potentially pursue graduate studies in economics, finance, and law.
